

Installation guide for administrators

Plugin: `local_zsk_local_statistics` (ZSK statistics & reports)
Version: 1.1.1 (build 2025061209) · Moodle 4.1+ (4.4+ recommended)

Purpose

Site-wide **statistics reports** for administrators and authorised users: users, courses, enrolments, logins – with filters, charts, and CSV export. No freemium license.

Interface languages: German, English, Spanish, Russian, Portuguese, French, Italian.

Installation

- 1. Copy folder `zsk_local_statistics` to `local/zsk_local_statistics/` (exact Frankenstyle name).
 - 2. **Site administration** → **Notifications** – run upgrade.
 - 3. **Site administration** → **Development** → **Purge all caches**.
 - 4. Optional: migrate from `local_statistics` – see MIGRATION.md.
-

Basic settings

Site administration → **ZSK Statistics** → **Statistics settings**

URL: `/admin/settings.php?section=local_zsk_local_statistics_settings`

Setting	Recommendation
Show navigation entry	Yes
Access control	Allowed users only

Details: SETTINGS.md

Enable reports

Site administration → **ZSK Statistics** → **Enable custom reports**

URL: `/admin/settings.php?section=local_zsk_local_statistics_reports`

All **15 reports** are enabled by default (3 groups: users, logins, course inventory). Disable unused reports as needed.

Allow users

Site administration → **ZSK Statistics** → **Manage report access**

URL: `/local/zsk_local_statistics/manageaccess.php`

Site administrators **always** have access.

E-mail clusters (optional)

Site administration → **ZSK Statistics** → **Manage e-mail clusters**

URL: `/local/zsk_local_statistics/clusters.php`

Site admin only — for department views (cumulative users, filtered new registrations).

Help in Moodle

Guide	URL
User	<code>/local/zsk_local_statistics/help.php?type=user</code>
Administrator	<code>/local/zsk_local_statistics/help.php?type=admin</code>

Source files: user.md · admin.md

Requirements

- Standard logstore (`logstore_standard_log`) for login reports
 - Moodle 4.4+ recommended (navigation hook; fallback 4.1–4.3)
-

Checklist

- ☐ Upgrade without errors
- ☐ At least one test user allowed
- ☐ Dashboard `/local/zsk_local_statistics/index.php` reachable

- ☐ One report including CSV export tested
 - ☐ Optional: reports and clusters configured as needed
-
